

## village level concept sharing meeting by CAHW

Participants: All households of the village and para-vets

Sl. No.	Task	Process/ Content	Materials Required	Actor	Time
1	Self Introduction	By all participants			15 min
2	Introduction about PIA	First what they know about PIA, then professional will explain about PIA	Flex on PIA		10 min
3	Objective sharing	How we can adress exhistig livestock related problems so that it can become a potential livelihood for a family.			10 min
4	Problems Related to livestock	Sub group discussion and consolidation in form of problem tree	Chart paper, cards and marker		40 min
5	Reason and wayout for the above problems	In the same sub group discuss on the reason for the above problems and how to adress these problems	Chart paper and marker		30 min
6	Potential income from this livelihood activities	Discuss with all the participants currently what they are getting and potential of this activities	Flex on goat and poultry birds		20 min
7	Need realisation and linking to Livestock project	People needs are linkied to Livestock project			10 min
8	Sharing about importance of mass vaccination	Sharing on why saturation, inclusion of all villages, mainly the impact of mass vaccination			10 min
9	Peoples requirement Vs project objective	Linking people needs with mass vaccination, need of CAHW and VRPs and proper service system	Flex on Project objective		20 min
10	Role of different actors sharing mostly Paravet and VRP	<b>Paravets:</b> 1- Helps in awareness building at the village level 2- Provides vaccination, de-worming and medication services to the farmers 3- Technical support to village level resource persons 4- Helps in data collection <b>VRPs:</b> 1- Demonstrates improved livestock rearing practices & motivate others to adopt 2- Support para-vets in vaccination, de-worming & medication processes 3- Provide instant support to farmers in emergency cases 4- Helps in data collection			20 min
11	Proposed model	Linking different actors at different levels and proposed mode of implementation	Flex on implementation model		15 min
12	Proposed activities	sharing the project activities along with baseline survey purpose	Flex on project activities		15 min
13	VRP selection	Preferably women who can read and write, SHG member, accepted by everybody, able to give time			15 min
14	Vote of thanks				

**Meeting objective: CAHW orientation cum vision building**

Participants: All CAHWs

Sl. No.	Task	Process/ Content	Time
1	Registration		15 mins
2	Introduction	In pairs about self, family, educational background	30 mins
3	Micro-lab	In diads/ triads Share about	30 mins
		Two things you liked most about yourself	
		Your hobbies( At least two)	
		Things you are proud of your self	
		Importance of LS(Goats and poultry birds) in your area	
		How do you feel when you are selected as CAHW	
		How do you see your role as a CAHW	
4	Meetings objective finilisation	1- To devlope a peer work group	30 mins
		2- They will feel confident and devlope clarity of this intervention	
		3- Poential return from this intervention	
		4- To devlope clarity about the project	
		5- To devlope clariry on their roles	
5	Introduction about PRADAN	First what they know about PRADAN, then professional will explain about PRADAN	15 mins
6	Their vision about themselves in this sector	Sharing sucessful experiences of Ramesh, Surendra in relation to Social acceptance, financial sustainability, technical knowledge and financial return from the activity for self.	30 mins
7	Our vision for this area w.r.t. to LS	Vision for livestock in the area( In sub groups) and potential return from the activity	60 mins
8	Action plan to achive vision	Exhisting gaps, appherensions and action plan finilisation	60 mins
9	Need realisation to work as a group	Importance of group for their peer learning, monitoring, planning, reviewing etc will be discussed	30 mins
10	Detail project sharing	Project details, outputs, Institution building, sustainability plan	30 mins
11	Financial aspect sharing	Financial aspect will be discussed	30 mins
12	Further action plan finilisation	Next training dates, VRP selection process with consultation with professional	15 mins
13	Feed back collection		15 mins
			<b>6 hrs 30 min</b>

Technical training on BYP and Goats

Time	Event	
Day-1		
10:00 AM	Registration	
10:30 AM	Introduction	
11.00 AM	Microlab	
	In diads/ triads Share about	
	Two things you liked most about yourself	
	Your hobbies( At least two)	
	Things you are proud of your self	
	Importance of LS(Goats and poultry birds) in your area	
	How do you feel when you are selected as CAHW	
	How do you see your role as a CAHW	
11.30 AM	Expectation mapping and objective sharing	
11.45 AM	Tea break	
12.00 PM	Theory on BYP	
	Introduction (importance of BYP rearing)	
	Housing (house construction, nest for egg laying, mentinance of house)	
	Water and nutrition	
	Egg laying, hatching, candelling of eggs, storing of eggs	
	Role of women	
	Economics of BYP rearing	
1.30 PM	Lunch break	
2.30 PM	Important diseases of BYP, their symptoms, control	
	Ranikhet Disease	
	Foul pox	
	Lice	
	Worms	
4.30 PM	Tea break	
4.45 PM	Cold chain and its importance	
5.30 PM	Vaccination equipments, procedure	
	Sterilisation	
	Informations needs to be gathered before vaccination and how to start vaccination process	
6.15 PM	Break	
7. 00 PM	Practical training of de-worming and lassota vaccination of poultry birds	
8. 00 PM	Closure of day-1	
Day-2		
9. 00 AM	Recap : Summary of Day-1	
9.30 AM	Theory on goat rearing	
	Introduction (importance of goat rearing)	
	Goat breeds	
	Shed	
	Feed	
	Characterstic of good goat, disease goat	
	Quality buck and its breeding	
	Age wise teeth	
11.30 AM	Tea break	
11.45 AM	Important diseases of goat	
	PPR	
	Pox	
	ET	
	FMD	
	Internal and external parasites (worm, teak, lice, mite etc.)	
1.30 PM	Lunch break	
2.30 PM	Practical	
	Syringe drawing from vials (30 mins)	
	Vaccination on banana leafs (30 mins)	
	Skill training on live birds (75 mins)	
	Loading the vaccine of 0.5 ml quantity in 2 ml syringe and ensuring elimination of air bubble	
	Holding the Birds	
	Site identification for vaccination and injection of vaccine	
4.30 PM	Tea break	Practical training of de-worming and lassota vaccination of poultry birds
5.00 PM	Feield visit for practical training on de-worimg and lassota vaccine adminstration in poultry birds	Feield visit for practical training on de-worimg and lassota vaccine adminstration in poultry birds
8.00 PM	Closure of Day-2	Feield visit for practical training on de-worimg and PPR vaccine adminstration in goats
Day-3		
7.00 AM	Feield visit for practical training on de-worimg and PPR vaccine adminstration in goats	
11.00 AM	Recap of Day-2	
11.30 AM	Action plan preparation	
	Vaccine carrier distribution	

	Medicine and vaccine procurement sources and their price
	Service charge finalisation of BYP birds and goats
	Area distribution
	Record maintenance
	Village wise action plan preparation
1.30 PM	Feed back and closure of the training

Participants: 20-25 CAHWs  
Resource person : Experts/ Livestock coordinator & 1-2 Old CAHW

Sl. No.	Phase	Objective	Task	Time	Day
	Phase 1 (3 days)	Orientation	Introduction	30 mins	Day 1
			Micro-lab	30 mins	
			Introduction about PIA	15 mins	
			Meetings objective finilisation	30 mins	
		Vision Building	Their vision about themselves in this sector	30 mins	
			Vision for this area w.r.t. to LS	60 mins	
			Action plan to achive vision	60 mins	
			Need realisation to work as a group	30 mins	
			Detail project sharing	30 mins	
			Financial aspect sharing (if required)	30 mins	
			Further action plan finilisation	15 mins	
		Expectation Mapping	Recap : Summary of Day-1	30 mins	Day 2
			Ice Breaking Game	30 mins	
			Expectation mapping and objective sharing	20 mins	
		Practices of BYP	Introduction (importance of BYP rearing)	90 min	
			Economics of BYP rearing		
			Role of women		
			Housing (house construction, nest for egg laying, mentinance of house)		
			Water and nutrition		
			Egg laying, hatching, candelling of eggs, storing of eggs		
		Diseases of BYP	Important diseases of BYP, their symptoms, control	120 mins	
			Ranikhet Disease		
			Foul pox		
			Lice		
			Worms		
		Vaccination Process	Vaccination equipments, procedure	50 mins	
			Sterilisation		
			Informations needs to be gathered before vaccination and how to start vaccination process		
		Cold Chain	Cold chain and its importance	50 mins	Day 3
		Practical Deworming & Lassota	Practical training of de-worming and lassota vaccination of poultry birds	60 mins	
			Field visit for practical training on de-woring and lassota vaccine adminstration in poultry birds (village level)	180 mins	
		Practical R2B & Pox	Syringe drawing from vials (30 mins)	180 mins	Day 4
			Vaccination on banana leafs (30 mins)		
			Skill training on live birds (75 mins)		
			Loading the vaccine of 0.5 ml quantity in 2 ml syringe and ensuring elimination of air bubble		
			Holding the Birds		
			Site identification for vaccination and injection of vaccine		
			Feielf visit for practical training on R2B & Fowl Pox	180 mins	
		Action Plan Preparation	Vaccine carrier distribution	120 mins	Day 5
			Medicene and vaccine procurement sources and their price		
			Service charge finalisation of BYP birds & CAHW economics		
			Area distribution		
			Record maintenance		
			Village wise action plan preparation		
		Feed back and closure of the training
